Information

Weed's Landscape Nursery is situated on the Canyon Road six miles west of Portland, being one mile east of Beaverton. Howard Evarts Weed, a Landscape Architect, formerly of Chicago, established the nursery in 1910. Wilbur W. Weed, a son, graduate in Landscape Gardening of the O. A. C., is associated with him. Landscape Gardening is made a specialty, a large business being done in the planning and ornamental planting of estates, suburban homes and city residences throughout the Pacific Northwest.

We grow the hardy ornamentals—flowering deciduous shrubs, broad leaved evergreens, conifers, shade trees and a full line of perennial flowers. Of these we have all the hardy varieties which are successfully used in landscape work in the Pacific Northwest. In this catalog are given only the leading plants used in this field, but as we grow many kinds and varieties not mentioned here, we can fill any order for ornamentals and will be pleased to make quotations. We do not handle greenhouse stock, bedding plants, annuals or the spring bulbs. Anything listed in this catalog can be depended upon for successful outdoor planting.

Our Landscape planting begins late in October and continues until the first of April. Fall planting is much preferred on account of this allowing the roots to become established during the winter months. In this way the plants make a better growth the first season. Peonies and Iris are planted from the first of September to March, the early planting being best. Peonies should not be planted after March, altho Iris can be successfully moved at any season.

Our displays of Peonies and Iris at the Rose Shows each year are a revelation to most people as to the beauty of these flowers. We have thousands see our fields of flowers during May and June. Those who visit the nursery once, get the habit and come often. If Weed's Landscape Nursery is still unknown to you, come out and investigate for yourself. You might like it and thus find a place to go, or to bring your visiting friends when out for a drive.

Beaverton, Oregon
WINTER BLOOMING IRIS
Photographed Jan. 16th

These Iris are in continuous bloom from December to April.
An inspection of stock at the nursery is invited at all times. In choosing stock at any particular season customers find only certain plants in bloom. These take their fancy and many more equally beautiful plants are overlooked because of blooming at a different season. To aid in the selection of stock for ornamental planting and to insure proper placing as regards colors, habitus and ultimate heights, we offer our landscape service.

If you contemplate the beautification of your home grounds, it is important that you know where and what to plant to produce the most pleasing effects. Shrubs and flowers, rightly placed, will add to the appearance of a home more than any other improvement one can make for a similar expenditure. In planting even a small yard, a planting plan is necessary in order to avoid inharmonious effects.

If you desire a plan of your yard, the next time we are in your locality we will take the necessary measurements and submit a planting plan to you. This plan will be drawn to scale, showing where and what trees, evergreens, shrubs and flowers should be planted, with an itemized list of all plants and their cost. In this way you will know just what it will cost for the planting of your yard. We make these plans for our customers without charge in order to show the possibilities of the correct planting of ornamental plants. The plan and list is our propositon for the improvement of your grounds.

We grow all the plants used in landscape gardening, and thus are able to furnish better plants and at less cost than can agents or gardeners. Our 20 years experience in this work is at your service for the asking. We use the broad-leaved evergreens for mass planting next to a house foundation and the flowering plants and perennials on the border of a lot, leaving the center entirely in lawn. We carry out your ideas in so far as these coincide with proper landscape design. Further information will be gladly furnished upon request.

Too often home owners leave the planting of shrubs, trees, and flowers to gardeners without experience in artistic arrangement. The result is that entirely too many varieties are placed in a group, so that the place as a whole looks overdone. It lacks that quiet, restful, appearance a home yard should possess. This is also often the case when the home owner selects the plant materials.

There is no guess work about our landscape service. We visit your home, take the measurements of the yard, ascertain your desires, the amount you are willing to expend, submit you a planting plan showing just where and what is to be planted together with an itemized list of every thing we propose to plant and its cost. After your approval, the planting is done at the proper season and our work guaranteed. We can show you examples of our work right in your own locality. We will also be pleased to show you at the nursery the plants which we propose for your planting.
The Deciduous Shrubs

To this class belong those shrubs which are without leaves during the winter months. In the following list are those which produce the most flowers and by which the best landscape effects are obtained. In our landscape service we arrange them in a mass of three or more in a group, giving a selection which will flower from March until November. The plants which we furnish are from two years old up, depending upon the variety. In height they range from 18 inches for the dwarf Spirea Waterer to five feet for Tartarian Honey-suckle. Mere height, however, is of no real value in a shrub. It is the root system which counts. All shrubs should have the tops well cut back when transplanted in order to promote a thrifty new growth.

Unless otherwise stated the price is fifty cents each for all the deciduous shrubs.

ARALIA spinosa. Hercules Club. Immense compound leaves which give a tropical effect. In August tops covered with large clusters of white flowers followed by black berries. $2.00

AZALEA occidentalis. Western Azalea. A large shrub with masses of white or rose flowers in May. $1.00

mollis. Chinese Azalea with yellow flowers. $2.00

BERBERIS thunbergi. Japanese Barberry. A very dependable small shrub covered with red berries in autumn. $1.00

Buddleia davidii. Butterflybush. A fast growing tall shrub bearing beautiful lilac flowers. Should be cut nearly to the ground each spring.

CORNUS alba. Coral Dogwood. Has showy red bark in winter.

CORYLUS purpurea. Purple Filbert. Large, dark purple leaves.

CYDONIA japonica. Flowering quince. With white, pink or red flowers in April. Subject, however, to San Jose scale.

CYTISUS andreamus. Paradise Broom. Bright yellow flowers with red center. $1.00

scoparius. Scotch Broom. Yellow flowers in spring. $0.25

globosa. A dwarf, compact form growing only 3 feet. $1.00

praecox. Yellowish white bloom and long, slender, drooping branches. 3 feet. $1.00

lemoinei Lemoine Deutzia. Medium in height.

DIERVILLA sessifolia. Yellow flowers in June. 3 feet high.

FORSYTHIA fortunei. Bright yellow flowers in March before the leaves.

HOLOCUSIS ariafolia. Oceanspray. A tall native shrub with clusters of graceful white flowers in July.

opuloides. Garden Hydrangea. Very large clusters of pink or blue flowers in summer. $1.00

paniculata. Panicle Hydrangea. Large beautiful flowers on the end of the stems in August. White changing to pink.
PHILADELPHUS Grandiflorus. Mockorange, Beautiful white flowers in July which are quite fragrant. Tall.

POTENTILLA fruticosa. Dwarf shrub with yellow flowers in July.

PRUNUS glandulosa. Flowering Almond. The double pink flowers make this a very desirable shrub

RIBES sanguinium. Flowers in March.

ROS A Japonica. Double Kerria. Beautiful yellow flowers for a long time, beginning in May.

LONICERA tartarea. Tartarian Honeysuckle. Pink bell-shaped flowers in early spring followed by red berries.

RIBES sanguinium. Flowers in March.

PHILADELPHUS Grandiflorus. Mockorange, Beautiful white flowers in July which are quite fragrant. Tall.

POTENTILLA fruticosa. Dwarf shrub with yellow flowers in July.

PRUNUS glandulosa. Flowering Almond. The double pink flowers make this a very desirable shrub

RIBES sanguinium. Flowers in March.

ROS A Japonica. Double Kerria. Beautiful yellow flowers for a long time, beginning in May.

LONICERA tartarea. Tartarian Honeysuckle. Pink bell-shaped flowers in early spring followed by red berries.

RIBES sanguinium. Flowers in March.

PHILADELPHUS Grandiflorus. Mockorange, Beautiful white flowers in July which are quite fragrant. Tall.

POTENTILLA fruticosa. Dwarf shrub with yellow flowers in July.

PRUNUS glandulosa. Flowering Almond. The double pink flowers make this a very desirable shrub

RIBES sanguinium. Flowers in March.

ROS A Japonica. Double Kerria. Beautiful yellow flowers for a long time, beginning in May.

LONICERA tartarea. Tartarian Honeysuckle. Pink bell-shaped flowers in early spring followed by red berries.

RIBES sanguinium. Flowers in March.

PHILADELPHUS Grandiflorus. Mockorange, Beautiful white flowers in July which are quite fragrant. Tall.

POTENTILLA fruticosa. Dwarf shrub with yellow flowers in July.

PRUNUS glandulosa. Flowering Almond. The double pink flowers make this a very desirable shrub

RIBES sanguinium. Flowers in March.

ROS A Japonica. Double Kerria. Beautiful yellow flowers for a long time, beginning in May.

LONICERA tartarea. Tartarian Honeysuckle. Pink bell-shaped flowers in early spring followed by red berries.

RIBES sanguinium. Flowers in March.

RIBES sanguinium. Flowers in March.
The Broad Leaved Evergreens

To this class belong those shrubs which retain their leaves in winter, their broad shining leaves distinguishing them from the Conifers. With them it is possible to make most excellent winter landscapes. In our landscape work we make "foundation plantings" practically entirely with these shrubs so that buildings may not look bare at any season. While they are not as prolific in bloom as the deciduous shrubs, many have beautiful red berries which hang on all winter and in this way produce delightful landscape effects. All our plants have been transplanted and are dug with a ball of dirt intact. They range in height from a foot for some of the dwarf Veronicas to five feet for the tall Cotoneasters. None are less than two years old while most are three and four.

**The price, unless otherwise stated, is one dollar each.**

**ABELIA grandiflora.** A recent introduction growing 3 to 4 feet with small shining leaves and graceful drooping branches. In autumn covered with light pink flowers.

**AUCUBA japonica.** Japanese Aucuba. Green leaves and scarlet berries.......................... $1.50
d. variebata. Gold dust Aucuba. With yellow spotted leaves.......................... $1.50

**AZALEA himodendri.** A dwarf shrub with brilliant red flowers in May.......................... $2.00

**BACCHARIS patagonica.** A new introduction with small shining leaves, yellow flowers, 4 ft.

**BERBERIS Darwini.** Darwin Barberry. Medium-sized plants, with shining leaves, yellow flowers and red berries.

**buxifolia.** Compact Barberry. A dwarf barberry, very compact.

**subcauliata.** With beautiful light green foliage and drooping branches. Yellow flowers.

**stenophylla.** Narrow leaves, slender drooping branches and yellow flowers.

**wilsonae.** Wilson Barberry. Similar to subcauliata.

**xanhoyzylum.** Knight Barberry. Growing 5 ft. with fine yellow flowers. Very shining light green foliage.

**BUXUS.** Boxwood. The several varieties of this well known plant range from 6 inches to three ft.

**arborescens.** Tree Box. 3 ft. Small dark leaves fine for box planting.......................... $1.50

** sempervirens.** Upright or cone-shaped plant. Compact, with small leaves. Useful for tubs.

$1.00 to $4.00.

**suffruticosa.** Dwarf Box. Much used for low hedges.......................... 25c to 50c

**CAMELLIA japonica.** With shining waxy leaves and beautiful waxy flowers in white, pink and red shades.......................... $2.50

**CASSINA fulvorda.** A beautiful shrub introduced by us. Fine leaves of a golden color. 5 ft. Resembles a Conifer at a distance.......................... $2.50

**COTONEASTER Francheti.** An upright drooping plant with glaucus foliage. Red berries in the autumn.

**floiosa.** A new variety of great merit. Medium in growth, with leathery foliage.......................... $1.25

**horizontalis.** Rock Cotoneaster. Low shrub with horizontal branches. Red berries, retained all winter. Much used for planting embankments.......................... 75c

**microphylla.** Similar to the above but leaves not so shiny. Berries larger but not so numerous.......................... 75c

ERICA ESCALLONIA
DAPHNE HYPERICUM EUONYMUS LAUROCERASUS ILEX. LIGUSTRUM MAHON'IA NANDINA PERNETTYA PYRACANTHA RHODODENDRONS.

STRANVAESIA VERONICA.

patens.

rubra. Red flowers and dark green foliage.

EUONYMUS japonica. Tall growing shrub with dark green shining foliage.

microphylla. A very dwarf, compact, small-leaved form. Very attractive.

patens. A new acquisition. Small, serrulate, bright green leaves and orange berries.

HYPERICUM calycinum St. John's Wort. A low grower with large yellow flowers in July. Useful for planting on embankments 50c Henryi. Taller than var, calycinum.

ILEX. Holly. A slow grower unless well watered. Eventually growing to considerable height. Can furnish in green or variegated foliage. Price $1.00 a ft.

LAUROCERASUS officinalis. English Laurel. Large shrub, with large shining leaves. Small plants for hedges 50c; 2-3 ft. $1.00

lusitanica. Portugal Laurel. Tall spreading plant, with glossy leaves $1.00 to $1.50

variegatum. Variegated Privet. With beautiful variegated foliage

LONICERA nitida. Upright Evergreen Honey-suckle. A recent introduction of great merit. Small shining leaves, vigorous grower. Very good for base plantings 75c and $1.00

pileata. Of slower growth than the above and more dwarf.

MAHONIA aquifolia. Oregon Grape. Well known Oregon state flower. Should be more largely used in landscape work 75c

NANDINA domestica. Heavenly Bamboo. An upright grower, with small compound leaves, which turn red in winter. White flowers followed by red berries 1.50

PERNETTYA mucronata. Dwarf grower, with beautiful small shining leaves showing red in winter. Large bright red berries 1.50

PYRACANTHA coccinea. An upright tall growing shrub bearing attractive clusters of red berries in autumn 1.50

RHODODENDRONS. The most attractive of all plants when in bloom yet lacking foliage at the base for proper landscape effects. Our plants are of stocky growth with 12 to 15 buds. Can furnish in white, pink, scarlet, and lavender $5.00 to $10.00

STRANVAESIA undulata. A handsome, tall-growing shrub, the new leaves having a coppery tinge. White flowers and scarlet fruit 1.25

VERONICA. These are dwarf shrubs of rather recent introduction but coming into great favor in landscape planting. They are from ten inches to three feet in height, with small evergreen foliage and white, pink and red flowers, amplexicaulis. With beautiful pink flowers...

buxifolia. Very dwarf growth, light green foliage ........................................ 50c
cupressoides. Grows to three feet. Fine foliage, resembling a conifer. .............. 75c and $1.00
erecta. A tall form of the buxifolia. Small leaves and erect growth. .............. 50c and 75c
'glaucophylla. With pointed leaves of a glaucous color. 2 feet. ..................... 75c

VIBURNUM tinus. Lauristinus. Large shrub with shining green foliage. Covered in February with umbels of small pink flowers .......... 1.25

Perennials

The hardy perennials are the only profuse-flowering plants we grow. Of these our collection is extensive. Only the most dependable varieties, especially those which may be used as cut flowers, are listed here. Achillea, Rosemary, Santolina, Seline, and a hundred others are omitted from this list, being regarded as not of real value, comparatively speaking. Our collection is quite complete, however, and orders can be filled for anything of real worth.

The perennials are flowers which, once planted are ever present. They are best planted in a group by themselves in what has come to be known as "the perennial border." In planting it is best not to mix them with the shrubs, but rather place in front of a shrubbery background. It is better to put all the phloxes together, all the iris' together, and so on, than to distribute each indiscriminately, without arrangement.

A suitable list and garden arrangement will be made up if dimensions of the space desired planted to the perennials are sent to us. There are so many good perennials that no home need be without cut flowers thruout the year, even during the winter months, for by the time the hardy asters are gone, the Winter-blooming iris come into flower. Money spent in the purchase of perennial flowers gives pleasure for all time and the flowers have a silent influence for the better in our lives that cannot be measured in terms of money.

One will be well repaid for time expended in visiting the nursery to see the perennials in flower. Each month of the year brings different flowers and the visitor will find bloom of some kind, no matter the season. The last of May or the first part of June finds acres of peonies and iris in their glory. It is strongly urged that a visit be made at this time if it is not possible to come more often.

The price of all perennials, unless otherwise stated, is 25c each for strong clumps, or $2.50 a dozen. The small, weak plants usual to the mail order trade are not handled.

ANEMONE. Whirlwind, white. September and October.

Queen Charlotte. Beautiful pink.

AQUILEGIA. Columbine. Pink, blue, or yellow. We have an extensive assortment of these flowers.

ARABIS alpina. Rockress. A pure white, low, spring flower.

ASTILBE astilboidea. With dense spikes of white flowers.

ASTER. The Michaelmas Daisy. Mostly tall, fall flowering. All varieties satisfactory for garden and as cut flowers.

Beauty of Colwell. Double Lavender.

Beauty of Ronsdorf. Very large; heliotrope.

Climax. Large bright violet.

Cloudy Blue. Semi-double lavender flowers on a pyramidal stem.

Edith Goodwin. Large deep blue flowers.

Effie. Azure blue.

Feltham Blue. Clear blue.

Ivy Logan. Long sprays of dark blue circular flowers.

John Wood. Lavender-blue.

Jupiter. Large, pale lavender with yellow center.

Lil Fardell. Bright mauve.

Maggie Perry. Large flowers of soft mauve.

Mauve Cushion. This distinct Japanese species forms a plant two feet across, but only nine inches high, covered with delicate mauve flowers.

Mrs. Davis Evans. Azure-blue flowers.

Mrs. Rayer. Crimson.

Perry's Favorite. Large, red.

Perry's White. Fine large white.

Robert Parker. Pale heliotrope.

Saturn. Large, light violet flowers.

Sensation. White.

St. Egwin. Rose-pink.

The Garden. Large lavender-pink.

Thompsoni. Soft blue.

White Queen. White.

Wm. Bowman. Fine purple.

BELLIS perennis. English Daisy. Dwarf, early, spring flowers in white and pink.

BOCCONIA cordata. White flowers on tall coarse plant.

CAMPANULA carpatica. Hair bell. Light blue.

CENTAUREA montana. Corn flower. Large blue flowers. Summer.

CENTRANTHUS alba. White. Flowers all summer.

rosea. Pink.

rubra. Red.

CHRYSANTHEMUM maximum. Shasta Daisy. Large, white. Summer.

COREOPSIS lanceolata. Dwarf plant, covered with bright yellow flowers.

DICENTRA spectabils. Bleedingheart. Heart shaped deep pink flowers in April. 50c

DORONICUM excelsum. Large Daisy-like, March and April.

FILIPENDULA ulmaria. Meadow Sweet. Delicate clusters of white flowers on tall stems. June and July 50c

Rubra. A variety with beautiful pink flowers. 50c

GAILLARDIA. Considered the best of all perennials. In bloom all summer. Large yellow petals with dark center.

GEUM. Mrs. Bradshaw. Fine red. May and June.

GYPOSOPHYLLA paniculata. Small white flowers in July which are good as everlasting. Added to a bouquet with other flowers will give a delightful effect. We carry the superior double variety only 75c

HELIOPSIS excelsa. Rich creme yellow flowers in July which change to bright yellow as they mature. Fine for cut flowers.

Pitcheriana. Beautiful deep golden yellow.

HOLLYHOCK. Tall, in many colors. Suitable for background.

IRIS. Practically all of the best and newer kinds of Iris are numbered in this collection. More than 30 varieties are kept on after some hundreds have been discarded as not being up to a high standard of excellence. Iris in our collection are in constant bloom from December to the middle or July, the main showing in May, at which time thousands of visitors view the blooms. Our special Iris catalog from which this list of varieties is taken will be sent upon request. The letter S. in the descriptions refers to the standards (upright petals) and the letter F., the falls (drooping petals).

THE WINTER BLOOMING IRIS.
These Iris bloom continuously from December to April, the flowers often showing above a covering of snow. Coming at such a season they are appreciated above all other outdoor flowers. No garden is complete without them.

Speciosa. S. clear lilac; F. purple...........$1.00
Marginata. S. lilac-blue; F. Margined white..50c

DWARF BEARDED IRIS. These bloom in April. As the flower stems are short, they should be planted in the foreground. Price...........25c

Cyanea. Rich blue, large and handsome.

Eburnea. S. almost white; F. pale yellow.

Siberica. Handsome clear blue flowers...........25c
Spuria aurica. Deep golden-yellow flowers, with tall foliage ..................50c

JAPANESE IRIS. These come into flower after all the other Irises are gone. Best grown in direct sunlight with plenty of water just before flowering. These varieties are selected. Each...........50c
Angel’s den. Vincus purple, speckled grey. 6 petals.
Cloud dress. Purple, margined grey. 6 petals.
Gold bound. Large pure white. 6 petals.
Kuro kumo. Deep purple, overlaid with blue. 6 petals.
Osho. Tyrain blue. 6 petals.
Shiga. Red lavender, with white halo. 6 petals.

KNIPHOFIA. Red Hot Poker.
foliosa. Spring flowering. Bright red.
pfitzeri. Red and yellow. August and September.

LESPEDEZA Sieboldii. A tall shrubby perennial bearing beautiful pink-purple flowers in September.

LIATRIS pycnostachya. Beautiful light purple flowers at the end of a tall stem. Next to Gaillardia the finest of all perennials. May be kept as an everlasting all winter.

LILIUM candidum. Madonna Lily. Beautiful white, late June.
auratum. Gold Banded Lily. Large flowers of rich creamy white, spotted with crimson and brown. August.
longiflorum. The Easter Lily so much grown by the florists, but which is hardly in Western Oregon.
regale. The finest of all outdoor lilies. Large beautiful white. Must be seen to be appreciated. Price $1.00.
tigrinum splendens. The orange lily with black spots. A profuse bloomer which should be in every garden.

LINARIA repens. Toad Flax. A fine rock plant with small pearly-blue flowers. All Summer.

Moerheimii. Excellent pink.
LYCHNIS. Bright red. July.
LYTHRUM roseum. Shrubby stems with rosy flowers, 3 feet.

OENOTHERA youngi. The evening primrose with bright yellow flowers.

PAPAVER orientale. Oriental Poppy. The brightest flowers of the month of May.

Mahoney. Deep mahogany-maroon.
Oriflamme. Fine orange-scarlet.
Rose Queen. Delicate rose-pink.
Royal Scarlet. Brilliant scarlet.

OENOTHERA. The evening primrose with bright yellow flowers.

PEONIES. The Weed Peonies form the most complete collection in the west. More than 500 varieties are grown, those varieties scoring under 7.5 on a basis of 10 for perfection, having been discarded. Thus every variety listed is of superior merit. It is not true that “all peonies are good,” except to those who know not the excellence of the best varieties. Our special peony catalog will be sent on request.

RED PEONIES.

Officinalis rubra. Very early.
Adolphe Rousseau. The best red, midseason.
Victor Hugo. Fine late.
Rubra superba. The last to bloom.
PINK PEONIES.
Alexandriana. Light pink, early.................. 50c
Edulis superba. Dark pink, early.................. 50c
Modeste Guerin. Mid-season........................ $1.00
Mme. Emile Galle. Late............................ $1.00

WHITE PEONIES.
Festiva maxima. Early.............................. 75c
Mme. Crouse. Midseason............................. 1.00
Marie Lemoine. Late................................. 1.00

BEST SINGLE WHITE.
Aliboria. The Bride................................. $2.00

BEST JAPANESE.
Cascade. White, resembles a water-lily............. 2.00
Daybreak. Rose-pink................................. 1.00

THE BEST PEONY OF ALL.
Reine Hortense. Large full rose-pink, with bloom size of a small cabbage. Will last as cut flower for two weeks if picked in bud.................. 5.00

PHLOX.
Phlox are the most admired flowers of July and August. More than sixty varieties are included in our collection. The phlox are rather dwarf plants with great clusters of flowers in various colors, mostly white, pink or red.

PolYGONUM affine. Low growing; with beautiful bright rose-red flowers in September,.............. 4.00

polyantha. English Primrose. Yellow, bronze, red or white.

PYRETHRUM roseum. Resembles the Shasta Daisy. Pink.

nitida. A tall grower, single, yellow.

SAXIFRAGA cordifolia. One of the first flowers of spring. Thick metallic leaves. Pink flowers in clusters.

SIDALCEA. Rose Queen. Pink flower on tall stems. June.

SOLIDAGO canadensis. Goldenrod. With large panicles of golden flowers in Autumn.

STOKESIA cyanea. Corn Flower. Lavender-blue, June-September.

corymbosa. Blue.
VIOLA cornuta. Blue-violet. Pretty, but flowers small.

The Conifers

To this class belong those evergreens which bear cones, as distinct from the “broad leaved evergreens.” Most of the Conifers become large trees. This must be taken into consideration in their planting. In landscape work they are mostly used as specimen plants at one side of the lawn. All of our Conifers have been several times transplanted. Plants can thus be lifted with a ball of dirt intact. In digging the roots are completely wrapped with burlap.

Conifers are slow of growth and thus comparatively expensive. Unless otherwise stated the price is one dollar per foot. With most varieties any size up to six feet can be furnished, but those from two to three feet are recommended for general planting.

ABIES concolor. The Concolor Fir. With silvery green foliage. One of the best.

CHAMEACYPARIS Lawsoniana. Lawson Cypress. An Oregon Native, with delicate feathery foliage.

erecta viridis. Green column cypress. A dwarf erect form, with bright green foliage.
erecta glauca. Blue column cypress. A compact dwarf form with bluish metallic foliage.

CUPRESSUS macrocarpa. Monterey Cypress. Of upright rapid growth.

semprevirens. Italian Cypress. Of upright columnar growth

CRYPTOMERIA japonica. Japan Cedar. A tall growing conifer with slender drooping branches, light green foliage.

JUNIPERUS hibernica. Irish Juniper. A pretty graceful conifer with deep green leaves and upright branches.

PICEA engelmannii. Engelmann’s Spruce. A fine compact tall grower.

TAXUS baccata. English Yew. Spreading branches and narrow dark leaves.

orientalis decussata. Rosedale Arbor-vitae. The most beautiful conifer for tubs or small single specimens. Very compact dwarf growing, with silvery new growth. $1.50 per foot.

TSUGA mertensiana. Western Hemlock. Slender pendulous branches. Foliage dark green above, almost white beneath.

Climbing Vines

BOSTON IVY. Glossy green leaves, clinging to brick or stone ......................................$0.50

CLEMATIS paniculata. White fragrant flowers 50c

HONEYSUCKLE. Hall’s Japan. leaves evergreen 50c

ENGLISH IVY. Thick shining leaves .................................$0.50

JASMINE. Bright yellow flowers ..............................$0.50

ENGELMANN’S IVY. An improved Virginia Creeper which clings ..................................$0.50

WISTERIA. Purple or white ......................................$1.00

POLYGONUM Auberti. The best climber of all,
A rapid grower covered all summer with clusters of beautiful white flowers ..................................$1.00
Ornamental Grasses

CORTADERIA argentea. Pampas Grass. Long, narrow drooping leaves with silvery plumes in autumn ........................................ 75¢
ELYMUS glaucus. Light blue narrow leaves, 50c
ERIANTHUS ravenae. Plume Grass. Numerous narrow leaves and showy plumes............... 50¢
MISCANTHUS sinensis. Chinese Miscanthus. Narrow, drooping leaves................................ 50¢

gracilima. Leaves more narrow than var, sinesis, with white midrib........... 50¢
variegata. Striped Miscanthus. Leaves longitudinally striped with green and silvery yellow 50c
zebrina. Zebra Grass. Leaves branded cross-wise........................................ 50¢
PHILARIS arundinacea picta. Ribbon Grass. Dwarf growing, with distinctly variegated foliage, 50¢
TRACHYCARPUS excelsa. Hardy Palm. The only palm for growing outdoors in Oregon, $2.00
YUCCA filamentosa. Yucca. Clusters of white flowers ........................................ 50¢

Shade Trees

Shade trees are used for both lawn and street planting. The Mt. Ash, Cut-leaved Birch, Laburnum and Maples are especially desirable for lawn planting, while the Norway Maple, Linden and Horse Chestnut are best for street planting. Our trees are several times transplanted, thus having a fine root system which assures successful growth after leaving the nursery.

Prices are for medium sized trees, best suited for planting. In most varieties both smaller or larger sizes can be furnished, the size governing the price.

AMERICAN WHITE ASH. A tall growing tree of upright habit. 8-10 feet.......................... $1.00

Roses

Roses are justly popular for the beauty of their flowers, yet they lack foliage for proper landscape effects. For this reason they should be planted either in a special place where they may be cultivated, or placed in front of taller shrubs. When planted in the single straight row as usual in Portland, they make anything but a successful landscape. If they must be in the front yard, they fit into the landscape scheme best by rounding out the border planting at the front corners with them.

The following comprise most of the standard sorts. We can furnish any variety desired and will be pleased to give prices on request.

CECILE BRUNNER. The small buttonhole rose. Bluish white $0.75
COLUMBIA. New. A very fine pink. $1.00
DUCHESS WELLINGTON. Saffron yellow coppery $0.75

"Say it With Flowers"

OURS is the nursery that is different. We believe in saying it with flowers in your home which are grown in your own yard. We show you what are the best flowers—those which can be grown with the least trouble. In the nursery we are constantly experimenting with new varieties, most of which are disappointing. But in this modest list we give only those plants which we can recommend and in this respect this booklet is different from most nursery catalogs. From an advertising standpoint it is the flowery descriptions which sell the plants. In this respect you may be disappointed in this catalog for we aim to mention only those plants which are truly of merit and to give only short descriptions of these.

We hope and expect your confidence, not only in our landscape service and the plants we offer, but in the prices asked. We claim to give the best possible service and this at a moderate cost.

There IS such a thing as ART out of doors. May we show it to you?
